What to do in case your child is not well:

Part of treating others with respect is insuring that to the best of your ability you are not passing sickness on to another person. During this time of flu, we advise parents with children who are ill to keep the children at home at least 24 hours AFTER fever has subsided – 24 hours after the last time they took medicine to reduce fever. Please also teach your children to wash their hands regularly.

Basic Information

Each student at TLCS should be able to give basic information regarding your family. Your child should know by memory his/her parents cell number and plot number in case of emergency. Please assure that your children know this. Also, should your information change at any time, please make sure our staff is notified through the homework diary or an email to learn@tlcs.co.bw so that we can keep our files updated with your proper information **and an** "in case of emergency number" at all times.
